SCHOOLS OPEN WITH ATTENDANCE GOOD AND DOCTORS PRESENT TO TO EXAMINE ALL THE CHILDREN

Schools opened this morning with great enthusiasm on the part of the pupils. Everything in regard to the buildings and school plants as a whole were in fine condition.

The attendance in some buildings was very good, the principals reporting about 90 per cent attendance and a number of new pupils.

The High school attendance was good, considering the number of new pupils that entered this morning. The teachers report, however, some of the former pupils delaying in attending. This is a great mistake. All of the teachers of the city are making an especial appeal to parents to send their children at once. On account of the shorter year it will be impossible to do successful work for the pupils who are not in regular attendance from the first day.

JAPANESE WOMAN IS ROBBED BY TWO MASKED MEN

Mrs. R. Namba, Japanese, was held up last night by two masked men as she returned from the Rex theatre to her home in the rear of a Japanese pool room, 253 Twenty-fourth street. The robbers obtained about \$15 in paper money.

Mrs. Namba was so excited when the police arrived that she was unable to give a good description of the men who were masked. The only information she could give was that one was tall and one was short.

It is thought that the men had followed the women from the Rex theatre, where the Japanese had been celebrating a Japanese holiday for the past two days. The men evidently expected that the proceeds of the evening's performance were in the possession of the woman, as she was treasurer of the event.

Both the sheriffs and the police responded to the call of the excited woman but neither department has been able to locate the holdups.

CHILD STRUCK BY BAMBERGER

A sad accident occurred yesterday afternoon on the Bamberger line near Orchard when the three-year-old daughter of John Zito was struck by a train and suffered the loss of her right arm between the wrist and the elbow and fracture and bruises to the left leg. The child is now in the Dee hospital undergoing surgical care and reported to be doing as well as can be expected.

According to Attorney DeVine, counsel for the company, the child was walking in the tracks with two other girls, aged respectively about 13 and 15, in the direction of Ogden along the double track way. The two older girls were walking ahead of the train when the crew noticed that one of them was turning back and attracting their attention to the little one in the double tracks. Despite the fact that the brakes were put on immediately and everything possible done to stop, the train continued to move on a down grade and running on slippery frozen rails made it impossible to stop before the accident occurred.

Neil Allen, a shop foreman who was a passenger on the train along with Richard Police, superintendent of the Oregon Short Line, crawled out on the plough and was instrumental in saving the child from death by stretching forward and pushing her to one side. Unfortunately he was not able to get the little one clear of the line altogether and she suffered the injuries noted above.

CHILDREN'S AID RECEIVES MONEY

But the kindness and thoughtfulness of this man did count, and the hearts of twenty women were gladdened, and made to rejoice, that the good works and sweet influence of Katherine Carnahan still live.

WAGE INCREASE FOR RAILROAD TELEGRAPHERS

WASHINGTON, Dec. 30.—Railroad telegraphers and station agents were given a further wage increase today by Director General McAdoo, retroactive to October 1.

DANIELS FOR BIG NAVY

WASHINGTON, Dec. 30.—Appearing before the House naval committee today in behalf of the new six hundred million dollar three year building program, Secretary Daniels said if a league of nations were organized the United States should be prepared to contribute as large a unit as any other nation to an international police force, and that without an international agreement for reduction of armaments the American policy of naval expansion should be continued indefinitely.

In formally submitting the new building program, the secretary urged a provision for suspension of construction at the order of the president whenever an international agreement is made, for armament reduction. Mr. Daniels declared the United States having pledged its support to small nations, should build a navy second to none in the world if an international tribunal with power to enforce its rulings failed to become a reality.

JAS. SHAW HERE FROM SAN JOSE

James Shaw, who left Ogden ten years ago, is here from San Jose on a visit to F. M. Hess and family. He says Ogden has a rich asset in its Weber club which has a name for hospitality.

EAGLES' CLUB IS TO HAVE ATHLETICS

According to Gus Trorlicht, secretary of the Eagles' club, activities of that organization are in full swing again and the unsatisfactory pipe line which refused to supply sufficient warm water to the swimming pool has been taken out and a new one installed which makes "everything all right now."

Mr. Trorlicht is organizing an athletic club to encourage Ogden boys in the activities of the pool and the gymnasium. Ladies' day for the use of the pool will be, as formerly, on Wednesday of each week.

MICHIGAN BOYS IN GRAVE DANGER

WASHINGTON, Dec. 30.—Criticizing the government for withholding information as to its policy in Russia, Senator Townsend of Michigan, Republican, read in the senate today a telegram from the Michigan war preparedness board stating the board was informed that the Allied forces in the vicinity of Archangel were outnumbered fifteen to one and were in danger of extermination unless reinforced.

Senator Townsend declared he had hundreds of communications from the families of a thousand Michigan soldiers now in northern Russia asking for information regarding them and seeking to verify reports relative to their welfare but that all efforts to obtain information from the secretary of war had failed.

"I have submitted the matter to the secretary of war a number of times," Secretary Townsend said, "but can get no satisfaction. The question that interests me is why are they there and what is this problem that is to be settled at the peace table. The answer is always that it is out of our hands. It now rests with the Allied forces in Europe and depends on the attitude of the president. I think the people ought to know it."

Senator Johnson of California said both the British and French governments had made public what they are doing relative to Russia and that "the only government that doesn't take into confidence its people is the present
